## SHORT STATEMENT OF PRINCIPLES.

**T**HIS SOCIETY differs in its Principles from any other Office.

Instead of charging rates admittedly higher than are necessary, and afterwards returning the excess, or a portion of it, in the shape of Periodical Bonuses, it gives from the first as large an Assurance as the Premiums will with perfect safety bear—reserving the Whole Surplus for those who live long enough to secure the Common Fund from loss.

A Policy for £1200 to £1250 may thus in most cases be had for the Premium usually charged for £1000 only; while, by *reserving* the surplus, large additions may be expected on the Policies of those who live to participate. In a few cases, Policies sharing at the whole four divisions have already been doubled.

ITS TERMS are thus well calculated to meet the requirements of intending Assurers. They are specially adapted to the case of Provisions in Family Settlements, or otherwise, where it is of importance to secure, from the first, for the smallest present outlay, a competent provision, of definite amount, in the case of early death.

### Annual Premiums for £100 at Death (with Profits).

AGE.	25	30	35	40	45	50
Payable during life . . . . .	£1 18 0	£2 1 6*	£2 6 10	£2 14 9	£3 5 9	£4 1 7
Limited to 21 payments . . . . .	2 12 6	2 15 4	3 0 2	3 7 5	3 17 6	4 12 1

\* A Person of 30 may thus secure £1000 at Death, by a yearly payment, DURING LIFE, of £20, 15s. This if paid to any other of the Scottish Mutual Offices, would secure £800 only, instead of £1000.

At age 40 the Premium *ceasing at age 60* is, for £1000, £33, 14s. 2d., being about the same as most Offices require to be paid during the whole term of life.

## The 39th Annual Meeting was held at Edinburgh on 28th March 1877.

‘The New Business again exceeds a Million, of which no portion was re-assured. The ratio of Expenditure continues unusually low. The Mortality and emerging Claims have been very moderate, slightly under last year; and there is consequently again a large increase in the Accumulated Fund.’

The New Policies were 1761, assuring £1,028,888, besides 24 Annuities for £1700 a year. New Premiums £32,741, and a further sum of £15,848 was received as price of Annuities. The total Premiums received in the year were £322,221. Total Receipts, including Interest, £441,598. Subsisting Assurances 22,368 for £11,347,707. The Deaths were 227, and the claims, after deducting a portion covered by re-assurance, £162,825, including £17,666 of Bonus additions.

The Realized Fund amounted at 31st December last to £2,876,091, 13s. 6d., showing an increase in the year of £227,204, 18s. 1d.

## THE FUND NOW EXCEEDS £2,900,000.

### SELECTIONS FROM OPINIONS OF THE PRESS.

"We can heartily recommend the 'Handy General Atlas' which Messrs Philip & Son have published. The maps, which have been engraved by Mr Bartholomew, are clear and easy of reference; while we have found by constant use that the selections of names is most judicious. The volume will prove useful to all readers of newspapers, and popular books of travel."—*Athenæum*.

"We would especially desire to notice 'Philip's Handy General Atlas,' illustrating Modern, Historical, and Physical Geography. It is really a most valuable work, and contains much matter which has not been set out in the same form; for the geography of the English Colonies is especially attended to, and the changes effected in the map of Europe by the wars of Napoleon illustrated by successive maps."—*Westminster Review*.

"We have been at some pains to examine the maps and test the accuracy of the Index, and we must pronounce the work in every respect excellent."—*Liverpool Alliance*.

"The 'Handy General Atlas' is a very excellent work for the use of students, and generally for purposes of reference in connection with geography. The maps are clearly printed, carefully coloured, and they appear, so far as we have been able to examine them, to be accurate in all respects. There is an admirable Index to the Atlas, and altogether the work is one which should have great popularity in the country."—*Scotsman*.

"The Maps are remarkable for the clearness and accuracy of their execution, and embody the latest territorial changes, and the results of the most recent discoveries."—*Courant*.

## OPINIONS OF THE PRESS.

“The maps reduced from the Ordnance Survey Sheets of Scotland, which are being published by Messrs A. & C. Black, Edinburgh, are deserving of a special word of praise, both on account of the care and skill with which they are delineated, and for the handy, portable shape in which they are issued. The scale—half-an-inch to the mile—is sufficiently large to allow of every farm, patch of wood, streamlet, or eminence likely to attract the notice of the tourist being plainly denoted, and Mr John Bartholomew has shown excellent judgment, as well as bestowed great pains in selecting the materials for the maps from the larger sheets. The heights of all the noteworthy eminences are given, but the roads and byeways of the country are indicated with special care. The result is a map at once clear, full, and accurate, and having the additional recommendations of being well mounted, tastefully tinted, and of convenient size.”—*Scotsman*, 26th May 1875.

“We speak advisedly when we say that these maps are the only existing tourist's maps that can be depended upon for the exact distance from place to place marked on them. Not one of the hundreds of cheap maps even pretend to accuracy in this respect. . . . We have no doubt whatever that they will at once supersede all existing maps, not only for the purposes of the tourist, but for all general purposes.”—*Courant*.

“After a most careful scrutiny of the many points and places of interest on the West Coast, we can testify to the skill and accuracy of Mr Bartholomew; while it is an additional recommendation that the delicacy and clearness of the engraving render the maps pleasant to the eye.”—*North British Daily Mail*.

EXPLANATION.—In the Left-hand Table are the years of the Century, and above each is the Dominical Letter corresponding with that Year. Then, opposite to the Month, at the foot of the Right-hand Table, will be found a corresponding Letter, over which are placed the Days of the Month and Week for that Month (distinguishing the Sundays by a different type). Each Blank Space in the Left-hand Table shows the Year following to be Leap Year; and as every Leap Year has two Dominical Letters, the Letter above the *Blank Space* must be used for January and February in every Leap Year; and for the other months, use the Letters belonging to the respective Years. By transposing the Dominical Letters, this Calendar would answer for any Century.
